

Evan Dogariu

DOCTORAL STUDENT AT NEW YORK UNIVERSITY

☎ (609) 789-3938 | ✉ ed2719@nyu.edu | 🏠 edogariu.github.io | 🔗 [edogariu](#) | 📌 [evandogariu](#)

Education

New York University

New York City, NY

DOCTOR OF PHILOSOPHY IN COMPUTER SCIENCE, COURANT INSTITUTE OF MATHEMATICAL SCIENCES

Sep 2024 - May 2029

Relevant Coursework

Probability Theory 1	Motion in Random Media	Partial Differential Equations
Probability Theory 2	Extrema of Gaussian Processes	Dynamical Systems
Random Matrix Theory	Large Deviations	Analysis of Algorithms

Princeton University

Princeton, NJ

BACHELOR OF ENGINEERING AND SCIENCE IN COMPUTER SCIENCE, GPA: 3.94/4.0

Sep 2020 - May 2024

Relevant Coursework (* denotes graduate coursework)

Functional Analysis*	Theoretical Machine Learning*	Computational Geometry
Integration Theory & Hilbert Spaces	Deep Learning Theory*	Theoretical Computer Science
Mathematical Physics*	Probability and Stochastic Systems	Real Analysis
Condensed Matter Theory*	Differential Equations	Linear Algebra
Geometric Measure Theory 1*	Computer Vision	Abstract Algebra
Geometric Measure Theory 2*	Natural Language Processing	Quantum Theory
Systems in Machine Learning*	Machine Learning	Biophysics
Neural Rendering*	Distributed Systems	
Advanced Algorithm Design*	Compiling Techniques	

Nottingham High School

Trenton, NJ

VALEDICTORIAN (1/400)

Sep 2016 - June 2020

Industry Experience

Google DeepMind

New York City, New York

STUDENT RESEARCHER

May 2025 - August 2025

Researched online convex optimization methods for sequence prediction in nonlinear dynamical systems with Prof. Elad Hazan.

Google DeepMind

STUDENT RESEARCHER

Princeton, NJ

May 2024 - November 2024

Researched theoretical properties and applications of spectral state space models under Dr. Naman Agarwal in collaboration with Prof. Elad Hazan.

Symbotic

MACHINE LEARNING/COMPUTER VISION INTERN

Wilmington, MA

May 2022 - August 2022

Developed 3D-aware generalizations to standard single-shot detection algorithms like SSD and YOLO for 3D detection and segmentation.

Developed a client-server pipeline via Docker, Kubernetes, and ZeroMQ in order to facilitate the deployment of the designed deep learning methods.

Teaching and Community

AI at Princeton [website]

CO-FOUNDER AND PRESIDENT

Princeton, NJ

May, 2022 - Present

- **Founded and ran** the first AI undergraduate community at Princeton (300+ members).
- Helped **organize AI Tiger Trek**, a heavily-subsidized week-long trip to meet top professors, entrepreneurs, and individuals in AI in San Francisco.
- Also **created a week-long bootcamp** on the history and basics of deep learning, practical AI/ML, and novel research topics and companies in the AI space. [slides] [recording]
- **Lecture on a selection of topics** at our bi-weekly club meetings, including but not limited to large language models, diffusion models, theoretical machine learning, hardware acceleration for deep learning, and physics-inspired ML.
- Launched an initiative to provide opportunities for undergraduates to meet with research faculty and graduate students through lunches.

Princeton University COS Department

PRECEPTOR/TA FOR COS217 AND COS226

Jan. 2022 - Jan. 2023

- Hosted lab TA sessions for assistance on coding assignments for the introduction to systems (COS217) and algorithms and data structures (COS226) classes at Princeton University.
- Led a precept (20 students) and held weekly office hours for the algorithms and data structures (COS226) class at Princeton University.

Skills & Hobbies

Coding Languages C/C++, Python, Java, Golang, MATLAB, Mathematica, LabVIEW, R, HTML/CSS

AI/ML Frameworks PyTorch, Tensorflow, Keras, Pandas, NumPy, SciPy, Matplotlib/Seaborn, OpenAI Gym, MuJoCo

Software Linux, Git, Anaconda, Docker, Kubernetes, Vim

Spoken Languages English, Romanian, Spanish

Hobbies Fixing/maintaining cars, building things out of wood and metal, soccer, chess
